NEERAJ CHAUDHARY

SOFTWARE DEVELOPER

Pinjore, Haryana, India | neerajchaudhary.dab@gmail.com | 7082386631 | LinkedIn

PROFILE

Frontend-focused Software Developer with 4+ years of experience building scalable web applications using React, TypeScript, and Node.js. Recently built an AI-powered lead management system with automated follow-ups using cron jobs and intelligent message generation. Strong in performance optimization, API integration, and building production-ready SaaS applications

TECHNICAL PROFICIENCIES

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+)
Backend: Node.js, Express.js
Database: MongoDB
State Management: Redux Toolkit, Zustand
Styling: Tailwind CSS, CSS3
Tools: Git, Postman, Vercel, Render
Concepts: REST APIs, System Design, Performance Optimization, Cron Jobs
Others: AI Integration (OpenAI APIs), React Hook Form

EMPLOYMENT HISTORY

Freelance / Independent Developer, Upwork **Oct 2025 to Present**

- Built and deployed scalable React and Next.js applications with TypeScript
- Implemented SSR, SSG, and ISR to improve SEO and performance
- Integrated AI-powered features using OpenAI APIs for dynamic content generation
- Optimized performance using CDN, lazy loading, and image optimization
- Delivered end-to-end solutions by collaborating directly with clients

Software Developer, ChicMic Studios **Jan 2025 to Sept 2025**

- Developed and maintained scalable web applications using React and Node.js
- Built reusable components and improved UI performance across applications
- Integrated REST APIs and handled complex state management
- Participated in code reviews and improved code quality across team

Front end developer, Expandimo Technologies Pvt. Ltd **Sept 2022 to Dec 2024**

- In the role of Front End Developer at Expandimo Technologies, responsibilities include crafting visually appealing and user-friendly interfaces. Utilizing a variety of technologies has been crucial in delivering responsive designs that enhance user experience. Collaboration with design and development teams ensures that projects align with business objectives.
- Developed responsive web applications using React, ensuring cross-browser compatibility. Optimized website performance, resulting in a significant increase in page load speed.
- Worked closely with UX/UI designers to implement intuitive user interfaces.
- Participated in agile development processes, contributing to iterative improvements. Engaged in user testing and feedback analysis to refine application functionalities.

Mern Stack developer, Solitire Infosys **Apr 2022 to Sept 2022**

- As a MERN Stack Developer at Solitire Infosys, the focus was on full-stack development utilizing MongoDB, Express.js, React, and Node.js. This role involved creating both client-side and server-side components, ensuring seamless integration and functionality. Collaboration with cross-functional teams has been key to achieving project goals efficiently.
- Built full-stack applications that improved operational efficiency and user satisfaction. Integrated third-party APIs to enhance application features.
- Conducted code reviews and debugging sessions to maintain high standards of quality.
- Implemented RESTful services for dynamic data handling and user interactions. Engaged in continuous learning to stay updated with the latest technologies and best practices.

PROJECTS

AI-Powered Lead Management System (SaaS MVP)

- Built a full-stack lead management system using React, Node.js, and MongoDB
- Implemented automated follow-up system using cron jobs to re-engage inactive leads
- Integrated AI-based message generation with fallback handling for reliability
- Designed dashboard with filtering, status tracking, and real-time updates
- Developed activity logging system to track communication history
- Applied React Hook Form for efficient form handling and validation

Sporttips

- Built a responsive platform to showcase sports gear recommendations from top athletes.
- Implemented dynamic content rendering and optimized image loading for better UX.
- Collaborated with UI/UX team to deliver a visually appealing and intuitive design

Kala Estate Masterplan

- Developed a responsive interactive masterplan showcasing real estate plots with dynamic filtering.
- Integrated a visually rich UI/UX with custom-tailored components for a modern, user friendly layout.
- Implemented RESTful APIs for fetching real-time plot and project data.

Rockon Recreation Rentals

- Develop a user-friendly and responsive website for renting boats and ATVs using Next.js
- Utilized dynamic routing in Next.js along with SSR, SSG and ISR.
- Integrated Redux actions for handling booking-related operations and updating the global state accordingly.
- Conducted unit and integration testing libraries using zest.

The PartyPlatform

- Developed and launched a cross-platform mobile app, "The PartyPlatform," using React Native for both iOS and Android, enabling users to seamlessly book events like birthday parties, weddings, catering services, photographers, and entertainers.
- Integrated real-time notifications and updates, ensuring users receive timely information about their bookings and event details.
- Utilized state management and performance optimization techniques to ensure a fast and responsive app experience across all devices.

EDUCATION

Maharaja Agrasen University **Aug 2019 to Aug 2023**
B.tech (CSE)

KEY STRENGTHS

- Strong problem-solving and system design thinking
- Experience building real-world SaaS applications
- Ability to learn and implement new technologies quickly
- Focus on performance, scalability, and clean architecture
