Indore, Madhya Pradesh, India

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience architecting scalable, high-performance backend systems and microservices. Led development of distributed applications handling high-volume API traffic and real-time processing using RabbitMQ, Redis, and Kafka. Improved system performance through query optimization and caching strategies. Experienced in AWS cloud deployments, CI/CD automation, and secure API design with RBAC and OAuth. Proven track record of delivering production-grade solutions aligned with business objectives.

TECHNICAL SKILLS

Primary Skills	Node.js, Express.js, Nest.js, React.js, Microservices, TypeScript, AWS, GraphQL
Backend Technologies	Node.js, Express.js, Nest.js, RESTful APIs, GraphQL, Redis, Node-Cache, Kubernetes, RabbitMQ, BullMQ, Kafka
Frontend Technologies	React.js, Next.js, HTML, CSS, JavaScript, Redux
Databases	PostgreSQL, MySQL, MongoDB
Cloud / DevOps	AWS (EC2, S3, RDS, Lambda, ECS, CloudWatch), GCP, Azure, Docker, Kubernetes, CI/CD (Jenkins, GitHub Actions, GitLab CI)
Containerization	Docker, Docker Compose
Project Management Tools	Jira, Asana, Trello, GitHub, Bitbucket, Sentry, New Relic
Methodologies	Agile, Scrum, SDLC, CI/CD, Automation Testing (Jest, Mocha)
ORM / ODM	Prisma, Mongoose

PROFESSIONAL EXPERIENCE

Hexaloop Technologies, Indore

Senior Node.js Developer | Jan 2025 – Present

- Architected scalable backend services using Node.js and Express.js supporting microservices architecture.
- Orchestrated asynchronous job processing using RabbitMQ and BullMQ handling high-volume background tasks.
- Implemented Redis-based caching strategy reducing API response time.
- Engineered secure REST APIs with RBAC and JWT-based authentication.
- Optimized MongoDB queries and indexing, improving database performance.
- Led backend design reviews and mentored junior developers.

IT Spark Technology, Indore

Full Stack Developer | Feb 2023 – Dec 2024

- Developed and deployed RESTful APIs using Node.js, Express.js, and Nest.js.
- Designed optimized MongoDB schemas improving query efficiency.
- Integrated payment gateways and third-party APIs handling secure transactions.
- Automated deployments using AWS CI/CD pipelines reducing release cycle time.
- Contributed to microservices migration for scalable system design.

Fincooper Tech India Ltd, Indore

Junior Software Developer | Jan 2021 – Jan 2023

- Built scalable web applications using Node.js, Express.js, and React.js.
- Engineered REST APIs integrated with third-party financial services.
- Implemented event-driven architecture using Kafka and Redis.
- Containerized services using Docker and deployed on Kubernetes clusters.

- Supported AWS ECS, Lambda, and S3 deployments in CI/CD pipelines.

PROJECT EXPERIENCE

Xactlane (Chuffers Application) | Senior Backend Engineer

A luxury chauffeur and ride-booking platform offering real-time vehicle booking services for airport transfers, city-to-city rides, events, and hourly bookings with live tracking and premium fleet options.

- Developed scalable RESTful APIs using Node.js and Express.js.
- Designed and implemented robust backend architecture.
- Integrated live location third-party APIs for real-time tracking.
- Optimized performance and ensured secure data handling.

Misbha (Hotel & Flight Booking Application) | Node.js Developer

A travel booking platform enabling users to search, compare, and book hotels and flights with real-time availability and secure transaction processing.

- Built robust backend APIs to manage booking workflows and transactions.
- Integrated third-party APIs for real-time flight data and availability.
- Implemented authentication, authorization, and secure payment processing logic.
- Optimized database queries to improve booking response time.

Zorbie (Healthcare Application) | Full Stack Developer

A healthcare management system designed to securely manage patient records, appointments, and medical workflows.

- Developed secure backend services following industry-standard security practices.
- Built dynamic server-rendered UI using the EJS templating engine.
- Implemented microservices architecture to enhance scalability and maintainability.
- Managed patient data workflows with validation and role-based access control.

Exods.ai (Ads & Creative Application) | Full Stack Developer

A digital advertising and creative management platform for managing campaigns, assets, and performance analytics.

- Designed efficient MongoDB schemas for scalable and optimized data storage.
- Developed REST APIs and integrated them with a React.js frontend.
- Implemented authentication and role-based access control mechanisms.
- Improved application performance through query optimization and API restructuring.

Education

Vikram University, Ujjain
B.Sc.

2014 – 2017

Certifications

MERN Stack Certification — Universal Informatics, Indore
