REST API

PROJECTS

Real-Time Quiz Application (01/2026 - Present)

- Designed and developed a **role-based full-stack quiz platform** using Spring Boot (REST APIs) and Angular (Material UI frontend)
- Implemented **secure hybrid authentication** by integrating Google OAuth2 for user identity and JWT for stateless session management and role-based authorization (Player / GameMaster).
- Developed scalable and modular **RESTful APIs** for quiz management, question handling, score tracking, and user management.
- Modeled complex entity relationships (Quiz-Questions-Results-Users) using **Spring Data JPA & Hibernate**, ensuring referential integrity with

Agriculture Data Visualization Dashboard

- Developed a web application that visualizes Indian agricultural data using interactive tables and bar charts
- Implemented Mantine v7 UI library for a responsive and modern interface, including light/dark mode toggle
- Fetches and processes structured agriculture dataset for real time data visualization

Portfolio

- Built a dynamic and responsive portfolio using ReactJS.
- Implemented responsive CSS (using media query)
- Experience with CSS Grid and Flexbox.
- Portfolio website task2 (glowing-pasca-db47e4.netlify.app)
