PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable, AI-powered web applications using JavaScript/TypeScript, React.js, Next.js, FastAPI, and MongoDB. Strong in REST API design, performance optimization, and production feature delivery in startup environments. Experienced in integrating generative AI models, improving system reliability, and shipping high-impact features end-to-end.

EXPERIENCE

Snapmydesign, Full Stack Developer 02/2025 – Present

- Developed and scaled AI-powered product photography workflows (AI Designer, virtual Try-On, image/video generation) using Next.js, TypeScript, Tailwind CSS, integrating multiple generative AI models.
- Redesigned and enhanced the platform UI with pagination, lazy loading, debouncing, and throttling, significantly improving SEO, page performance, and user experience.
- Integrated PhonePe payment gateway with AutoPay subscriptions using the PhonePe Python SDK, enabling secure one-time and recurring payments.
- Optimized backend and analytics infrastructure by modularizing FastAPI endpoints and implementing cached dashboards for users, tools, and orders, reducing Firebase load and improving system performance.

CvSwitch, Full Stack Developer 09/2024 – 02/2025

- Developed and scaled resume creation, editing, and job-tailoring features with Next.js and Tailwind CSS, supporting end-to-end user flows from input to export.
- Integrated frontend with Python/Firebase APIs to ensure reliable data flow and reduced UI latency.
- Refined rendering performance by restructuring React hooks and modular UI components, cutting unnecessary component re-rendering and improving UI responsiveness.
- Coordinated with backend team for API rollout, error handling, and QA testing.

IIT Delhi, Frontend Developer 09/2024 – 12/2024

- Developed reusable React components for a real-time eye-gaze & emotion tracking system.
- Refactored critical modules, reducing unnecessary component re-renders and improving performance by 15%.
- Ensured accessibility, clean code structure, and adherence to modern frontend standards.

EDUCATION

Maharaja Agrasen Institute of Technology, Delhi, BTech (AI&DS) 2021 – 2025 | New Delhi | 8.7 CGPA

SKILLS

Languages: TypeScript, JavaScript, Python, Java, **Frontend:** React.js, Next.js, Tailwind CSS, Shadcn UI, Framer Motion, **Backend:** Node.js, Express.js, FastAPI, REST APIs, JWT, OAuth, NextAuth, Prisma ORM, **Databases:** MongoDB, Firebase, PostgreSQL, Supabase., **Tools:** Git, GitHub, Docker, Vercel, Postman, GCP, Firestore, VS Code, Cursor, Redux, Zod, bcrypt, **AI/Other:** AI Agents, RAG, Generative AI, Agentic Workflow, Google Gemini, Vertex AI, AI model integrations.

PROJECTS

DocuMind [🔗](#) 01/2026 – 03/2026

- Built a multi-user RAG app with OpenAI embeddings and pgvector similarity search for document-grounded Q&A.
- Improved answer accuracy by injecting last 3 Q&A pairs into prompts, enabling coherent multi-turn conversations.
- Enforced zero cross-user data leakage via Clerk Auth with userId-scoped Prisma queries and transactions.
- **Stack:** Next.js 16, TypeScript, PostgreSQL + pgvector, Prisma ORM, OpenAI GPT-4o-mini, Clerk, Tailwind CSS, Supabase, Zod

CreatorConnect [🔗](#) 07/2025 – 09/2025

- Architected an AI-based creator-brand matching system using Next.js and Google Gemini, designed for relevance scoring and automated recommendations.
- Designed a dual-layer scoring algorithm (rule-based + semantic AI) improving match relevance by 80%.
- Reduced API latency by 60% through streamlined MongoDB queries and improved error-handling pipeline.
- **Stack:** Next.js 14, TypeScript, MongoDB, Gemini AI, Tailwind CSS, Zod

ROLES & RESPONSIBILITIES

Event Head-Computer Society of India (CSI) [🔗](#) 03/2022 – 08/2023

Led technical and non-technical event execution, increasing student participation via strategic planning, outreach, logistics, and on-ground coordination.

ACHIEVEMENTS & CERTIFICATIONS

Contributed to Hacktoberfest 2023 [🔗](#), DigitalOcean 10/2024 – 10/2024

The Complete 2023 Web Development Bootcamp [🔗](#), Udemy 05/2023 – 07/2023
