SUMMARY

Full-Stack Web Developer with a solid foundation in data structures, algorithms, and software design. Proficient in Python, Java, and C, with hands-on experience in backend development (Node.js, Express, MongoDB) and frontend development (React, HTML5, CSS3, JavaScript, Redux). Skilled in building scalable applications, designing and consuming RESTful APIs, integrating cloud services like Cloudinary, and optimizing performance for seamless user experiences. Passionate about delivering high-quality, impactful solutions and growing within collaborative engineering teams.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, Java, C
- **Backend:** Node.js, Express, REST APIs, JWT
- **Frontend:** React, Redux, HTML, CSS, Tailwind CSS, Bootstrap
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, Postman, Vercel, VS Code, Eclipse, Jupyter Notebook.

EXPERIENCE

TEN Company

July 2025 – September 2025

Frontend Developer Intern – TEN Art Academy (MERN Stack Project)

Remote

- Collaborated with a cross-functional development team to design and implement the frontend for **TEN Art Academy**, an e-learning platform built using the MERN stack.
- Developed dynamic and responsive React components, ensuring seamless integration with backend APIs for course management and student enrollment features.
- Optimized user interface design and implemented reusable components using React Hooks and Tailwind CSS to enhance maintainability and consistency across modules.
- Worked closely with backend developers to ensure smooth data flow between the client and server, improving overall application performance and user experience.
- Gained hands-on experience in Agile development practices, version control (Git/GitHub), and modern web development workflows in a collaborative team environment.

PROJECTS

Urban Pulse – Smart Civic Platform

Live-<https://mini-project-urbanpulse.vercel.app>

- Developed and deployed a dynamic e-governance platform facilitating public access to services like complaints, appointments, and bill payments.
- Engineered interactive GIS features using Leaflet.js to enabling users to explore city infrastructure including parks, temples and municipal facilities.
- Designed modular workflows for Electrical, Plumbing, and Water departments to streamline issue tracking and resolution.
- Integrated Stripe for secure digital payments and implemented real-time reminder and notification systems to improve user engagement.
- Strengthened civic participation by building a transparent, two-way communication channel between citizens and local government bodies.
- **GitHub:** <https://github.com/kowshikmeda/urbanpulse>

Gully Kabaddi – Kabaddi Match Platform

Live-<https://kabaddi-fd.vercel.app/>

- Conceptualized, architected, and developed a full-stack web application digitizing local Kabaddi tournaments, bringing real-time score tracking and professional-grade management to community-level matches.
- Built using the MERN stack (MongoDB, Express, React, Node.js) with a modular architecture supporting two distinct user roles — Normal Users and Authenticated Users.
- Enabled normal users to access live score updates, commentary streams, detailed match scorecards, and player performance statistics through an intuitive, responsive interface.

- Empowered authenticated users with match administration capabilities, including match creation, real-time score control, status management, and personalized profile dashboards to manage individual stats.
- Designed the system for scalability and responsiveness, enhancing spectator engagement and promoting digital transformation within local sports communities.
- **GitHub:** <https://github.com/kowshikmeda/KabaddiFd>

EDUCATION

Rajiv Gandhi University of Knowledge Technologies <i>B.Tech in Computer Science and Engineering</i>	2022 – Present <i>CGPA: 9.3/10</i>
Pre-University, RGUKT RK Valley <i>Maths, Physics, Chemistry Stream</i>	2020 – 2022 <i>CGPA: 9.89/10</i>
Sri G.V.M High School <i>Secondary School Education</i>	2019 – 2020 <i>CGPA: 10/10</i>

CERTIFICATIONS

- HackerRank – Java (Basic), MySQL (Basic)
- National Service Scheme (NSS) – Certified for community service and leadership activities.

ACHIEVEMENTS

- Solved 300+ problems on LeetCode, 200+ on GeeksforGeeks, and 50+ SQL problems.
