SKILLS

Languages & Database : C, C++, HTML, CSS, JavaScript, SQL, MongoDB
Technologies & Tools : React.js, Express.js, Next.js, Node.js, TailwindCSS, RESTful APIs, Postman, Version Control (Git)
Coursework & Extras : Data Structure, Algorithms, Object Oriented Programming (OOPs), DBMS

WORK EXPERIENCE

Nomos Insights

Jan 2025 - present

Software Engineer

- Worked on **Kaleidoscope** and **Outreach platform**, contributing to feature development and enhancements across frontend and backend systems.
- Gained hands-on experience with **Next.js, React, TypeScript, FastAPI, and Node.js**, building scalable UI components and integrating backend APIs.
- Followed clean code practices by writing readable, modular components and effectively debugging issues across frontend and backend.
- Collaborated within a team using Git for version control, participated in code reviews, and built interfaces using **Mantine and Ant Design** while understanding backend workflows.

AUGMETIC INFINITE LLP

May 2024 - June 2024

Software Engineer Intern

- Developed a full-stack online bookstore application using the MERN stack, implementing secure user authentication, book management features, and a responsive UI with ReactJS and TailwindCSS.
- Designed and integrated RESTful APIs with Node.js and Express.js, enabling efficient data handling and seamless integration with MongoDB.
- Enhanced overall application performance and usability by improving frontend accessibility and responsiveness and optimizing backend API response time.

PROJECTS

Community-App

[Link to Demo](#)

- Developed a **Community Connection mobile application** enabling users to discover **surname-based connections**, access **emergency contacts**, and participate in **community donations** within a unified platform.
- Implemented an **interactive family tree module** allowing users to **visualize, add, and manage family members** with secure **OTP-based authentication** and role-based access control.
- Built and integrated **9+ modular features** including **jobs, events, businesses, news, notifications, and committee management**, following a **feature-based, layered architecture** using **React Native, Expo, and TypeScript**.
- Integrated **GCP services** for **secure media storage**, along with **gallery and event gathering modules** to showcase **community functions, achievements, and family milestones**.
- Designed a **scalable and maintainable architecture** with **Zustand + React Query** for state management, **bilingual support (Gujarati & English)**, and **JWT-based security** with performance optimizations.

EDUCATION

2021 - 2025	Bachelor's Degree at Charotar University of Science and Technology	(CGPA: 7.17/10.0)
2019 - 2021	P P Savani Vidhya Bhavan	(Percentage:86%)
May 2019	Ashadeep High School 3	(Percentage:87%)
