CAREER OBJECTIVE

Dedicated and goal-oriented professional with strong technical skills and hands-on experience in backend and full-stack development. Seeking an entry-level software engineer or backend developer role to apply Java Spring Boot, REST API, and database skills in building scalable and innovative software solutions.

SUMMARY

- Gained practical exposure through multiple internships in backend and full-stack development using **Java, Spring Boot, REST APIs, Node.js, and SQL**.
 - Passionate about building real-time applications and integrating APIs to solve business problems.
-

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Node.js

Frameworks & Tools: Spring Boot, REST API, Microservices

Web Technologies: HTML, CSS

Databases: MySQL, SQL

Version Control: Git, GitHub, GitLab

Operating System: Windows

INTERNSHIPS

 **Akiyam Solutions Private Limited – Remote**

Role: AI Engineer Intern

Duration: 1st Dec 2025 – 31st May 2026

Email: contact@akiyam.in

Website: www.akiyam.in

Project Titles: GenAA(RAGPS4 Page), BioAI-UI

Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, Node.js (API integration / server setup), REST APIs, GitLab

GenAA:

Worked on RAGPS4 page UI development and API integration for AI-based responses.

BioAI-UI:

Developed and maintained frontend UI for BioAI application with API integration.

💡 HulkHire Tech – Remote

Role: Java Developer Trainee

Duration: 4th Aug 2025 – 26th Sep 2025

Website: www.hulkhiretech.com

Project Title: Stripe Payment Integration

Tech Stack: Java, Spring Boot, Microservices

- Worked on integrating Stripe Payment Gateway using RESTful APIs in a Spring Boot environment.
 - Designed microservice-based backend modules and implemented secure payment workflows.
 - Collaborated with developers to enhance scalability and maintainability of payment services.
-

💡 EazyByts Web Solutions – Remote

Role: Full Stack Java Developer Intern

Duration: 1st Aug 2025 – 31st Aug 2025

Website: www.eazybyts.com

Projects:

- **Chat Application with User Authentication**
 - **Stock Trading Simulation System**
 - **News Aggregator Website**
Tech Stack: Java, Spring Boot, HTML, CSS, JavaScript, MySQL
 - Developed REST APIs and backend logic for chat and stock simulation systems.
 - Integrated authentication and role-based access using Spring Security.
 - Implemented database schema and performed CRUD operations via MySQL.
-

💡 Bluestock Fintech – Remote

Role: SDE Intern

Duration: June 2025 – July 2025

Website: www.bluestock.in

Project Title: IPO Web Application & REST API Development

Tech Stack: Java, Spring Boot, React.js, REST API, SQL

- Built backend modules for IPO data management and REST API endpoints.
- Connected frontend React components with REST APIs for real-time updates.
- Worked with PostgreSQL database and optimized queries for performance.

EDUCATION

- **MCA**, *Amity University*
- **Master of Arts**, *MGAHV University*
- **Bachelor of Science**, *Dr. Ambedkar College*
- **12th**, *Jubilee High School*
- **10th**, *Madhyamik Ashram School*

ACHIEVEMENTS

- Organized and participated in technical events and essay competitions.
- Recognized for active participation and leadership in academic events.

STRENGTHS

- Strong analytical and problem-solving abilities
- Quick learner and team player
- Good communication and collaboration skills
- Active learning and critical thinking mindset
