PLACE : chittoor,Andhrapradesh, India.

CAREER OBJECTIVE

Computer Science Engineer with applied internship experience in AI product development and full-stack engineering, seeking a Software Engineering role where both disciplines converge. Having contributed to AI product workflows in a professional environment, I bring the technical breadth of an end-to-end developer and the product-oriented mindset of an engineer who understands how intelligent systems are built, integrated, and delivered at scale — not as features, but as the core of the product.

EDUCATION

The Apollo University chittoor	Sep 2023 - present
B.Tech in Computer Science Engineering; GPA : 9.49	
Sri vivekananda junior college chittoor	Jun 2021 - mar 2023
Intermediate(MPC); percentage : 94.5	
Kings English Medium School chittoor	Jun 2020 - may 2021
SSC;GPA : 10.0	

PROJECTS

Developed a Build Tracker web app using React	May 2025 - Jun 2025
- Built a full-stack web app for tracking and improving individual productivity. - Added authentication, task management, and progress tracking with a responsive UI. - Enabled users to monitor productivity trends and boost efficiency.	

Alumni Network Portal (Team Project)	Dec 2025 - Jan 2025
- Engineered the frontend using React, delivering a responsive and seamless user experience across devices. - Collaborated with the team to integrate UI components with backend APIs, enabling real-time alumni connectivity.	

Developed an AI Study Assistant using Python and Generative AI	Feb 2026 - Mar 2026
- Built an AI-powered assistant that generates summaries, quizzes, and explanations from study material. - Integrated LLM API for context-aware question answering and topic-based content generation. - Designed a responsive UI for real-time student interaction across multiple subjects.	

PROFESSIONAL EXPERIENCE

Full Stack Development Intern - At Tropical AgroTech Systems (OFFLINE)	May 2025 - Jun 2025
- Served as a Full Stack developer intern for 45 days at chennai. Built a productivity tracker with management features. - Implemented JWT authentication, responsive UI, and integrated MongoDB for secure data storage.	
AI Product Intern - At Webvoid Technologies Pvt Ltd.	Oct 2025 - Mar 2026
- Conducted R&D on AI interview products, analyzing use cases and contributing to product-level decision making. - Structured and documented technical knowledge bases covering Generative AI, NLP, and Deep Learning concepts. - Developed frontend interfaces using React to support AI product workflows and internal tooling.	

SKILLS SUMMARY

- Languages** : Python, Java, HTML, CSS, JavaScript
- Areas of Expertise** : Artificial Intelligence, Full Stack Development
- Tools** : Git & GitHub, Microsoft Office, Visual Studio Code, Tableau, Postman
- Databases** : MySQL, MongoDB
- Soft Skills** : Communication, Team Collaboration, Leadership, Critical Thinking
- Spoken Languages Known** : English, Telugu, Hindi, Tamil

COURSES AND CERTIFICATIONS

- Skill Badges** – Google Cloud Skills Boost : Introduction to Generative AI; Prompt Design in Vertex AI; Prepare Data for ML APIs; Cloud Network Security Foundations; Cloud Computing Foundations.
- Artificial Intelligence Fundamentals** – IBM Skills Build (Issued Aug 2025)
- Google Analytics Badge** – Google - Demonstrated skills in web analytics, data tracking and performance measurement.
