Passionate about mobile applications since childhood, I've always loved using apps and seeing how they make everyday life easier. This inspired me to study Computer Science and specialize in Flutter development. I have completed **500+ hours** of intensive Flutter training and **130+ hours** in programming fundamentals, and developed **more than 10 mobile applications** through both individual and collaborative projects. Skilled in building scalable, user-friendly cross-platform apps using **Flutter, Dart, and Firebase**, applying **clean architecture** and modern state management techniques. Passionate about building impactful digital solutions, solving real-world problems, and growing through teamwork and innovation.

EDUCATION

Bachelor of Science in Computer Science, Faculty of Science, Alexandria University

October 2022 – June 2026 | Alexandria, Egypt

Department: Computer Science (special)

GPA: 3.61 / 4.0

Graduating with over 130 credit hours in Computer Science.

TRAINING AND CERTIFICATES

National Telecommunication Institute(NTI), Flutter trainee

December 2025 – Present

Mobile App Development using Flutter (90 Hours) Intensive training focused on building mobile applications using **Flutter and Dart** from scratch.

- Dart fundamentals and object-oriented programming
- Flutter basics and UI development
- Building apps: **To-Do List, BMI Calculator, and Chat App**
- API integration and Firebase usage

Digital Egypt Pioneers Initiative (DEPI), Ministry of Communications and Information Technology [🔗](#), **Flutter Scholarship Program**

January 2025 – January 2026

Accepted into the **Flutter Scholarship Program** offered by DEPI.

Training focuses on **cross-platform mobile app development (180 Hours)** using **Flutter and Dart**.

Covers both **fundamentals** and **advanced topics**, including:

- Working with **Firebase**
- Designing **user-friendly UIs**
- Deploying apps on **Android** and **iOS**

Includes a **capstone project** to apply knowledge in a real-world application.

Sprints X Microsoft [🔗](#), **Flutter trainee**

July 2025 – September 2025

- Learned **Dart fundamentals** and **Flutter framework** for cross-platform app development(**40 Hours**).
- Applied **UI/UX design principles**, state management, and app navigation.
- Gained experience with localization, and Git/GitHub for version control.

Information Technology Institute (ITI), Flutter trainee

August 2025 – September 2025

- **ITI CodeCamp Summer – Flutter Development Track** (2 weeks, intensive **90 Hours**).
- Built strong foundations in **cross-platform mobile app development**.
- Training covers **Dart fundamentals, Flutter framework, and Firebase integration**.
- Combines **theory with hands-on projects** to reinforce learning.
- Enhancing skills in **UI/UX design, backend integration, and end-to-end app development** (from concept to deployment).

Mindset Training, Flutter trainee

January 2025 – May 2025

- Learned **Flutter UI components (180 Hours)**, widgets, **state management**, and **Dart fundamentals**.
- Built **interactive mobile applications** using the **Flutter framework**.
- Gained hands-on experience with **Firebase, local Storage** and **REST API integration**.

PROJECTS

TaL3a, Digital Egypt Pioneers Initiative (DEPI)

August 2025 – November 2025

A Flutter mobile app with location-based services, Arabic support, onboarding flow, user authentication, category-based navigation, search, promotions, and profile management. Features responsive design, smooth animations, and interactive UI.

Technologies: Flutter, Dart, Bloc, Hive, ScreenUtil, Lottie, Google Fonts, Google Maps .

[Link GitHub](#) [🔗](#)

Chat App, National Telecommunication Institute(NTI)

February 2026 – January 2026

A Flutter mobile application for real-time chatting with user authentication and interactive messaging UI. The app includes Firebase integration, clean navigation flow, and supports AI chatbot interaction using **Gemini API**. It focuses on responsive design, smooth user experience, and scalable project structure.

Technologies: Flutter, Dart, Firebase (Auth, Firestore), Gemini API, Bloc, ScreenUtil, Google Fonts.

[Link GitHub](#) [🔗](#)

Movies App, National Telecommunication Institute(NTI)

February 2026 – February 2026

A Flutter mobile application that fetches movie data from an API to display **popular films**, allows users to **add favorites**, and supports **dark-to-light theme switching**. Features a clean, responsive design with smooth animations and an interactive UI for browsing and managing movie preferences.

Technologies: Flutter, Dart, Provider, HTTP, ScreenUtil, Lottie, Google Fonts.

[Link GitHub](#) [🔗](#)

BMI Calculator, National Telecommunication Institute(NTI)

January 2026 – January 2026

A Flutter mobile application for calculating Body Mass Index (BMI) with a clean and user-friendly interface. The app allows users to input height and weight, calculate BMI instantly, and display health status results clearly. It focuses on simple logic implementation, smooth UI, and responsive design.

Technologies: Flutter, Dart , animated_text_kit

[Link Github](#) 

To-Do List Mobile Application, Mindset

December 2025 – January 2026

Developed a Flutter-based task management app that enables users to register, log in, and manage personal tasks. The app integrates Firebase for authentication and real-time data storage, ensuring secure user access and efficient task management.

Technologies: Flutter, Dart, Firebase, flutter_bloc, get_it

[Link GitHub](#) 

TaskyApp, Digital Egypt Pioneers Initiative (DEPI)

July 2025 – August 2025

A mobile application that allows users to create, organize, and track their daily tasks with customizable themes and a simple, responsive interface.

Technologies: Flutter, Dart, Provider (state management), SharedPreferences, Hive, ScreenUtil, Clean Code & Clean Architecture principles

[Link Github](#) 

E-commerce, Graduation project for Sprints

July 2025 – August 2025

The app simulates a real-world shopping experience with authentication, product display, cart interactions, and smooth navigation.

Technologies: Flutter, Dart, Git/GitHub, UI/UX Design Principles

SKILLS

Flutter development

- Firebase (Authentication-Firestore Database-Cloud Messaging (FCM))
- clean architecture
- State Management (Bloc/Cubit-Provider)
- Local storage (Hive-Sqlite-Sheredpreference)
- Responsive UI Design (Media query-Flutter screen Utils)
- CI/CD basics
- API Integration (Dio / http)
- Accessibility & Localization
- Animations(Lottie Files) & Transitions
- animated text kit

Software Engineering

- OOP
- Data structure
- Version control (Git-GitHub-GitLab)
- Figma
- Postman
- Design Patterns
- Algorithm

Soft Skills

- Organized & Structured Thinker
- Time management
- Goal-Oriented & Focused
- Attention to Detail
- Organized & Structured Thinker
- Effective Communication skills
- Problem Solving
- Teamwork & Collaboration
- Active Listening
- Deadline-Oriented
- Multitasking
- Work Under Pressure

Programming language

- Dart
- Flutter
- JAVA
- C++
- Python
- Go
- HTML

COURSES

Freelancing course, EYouth Training Program with ITIDA

June 2025 – April 2025

- Developed expertise in freelancing platforms, and client communication Learned business strategies to grow a freelancing career in software development

Soft skills Course, Vital Egypt

March 2024 – May 2024

- Trained in effective communication, time management, teamwork, and leadership Participated in workshops to enhance emotional intelligence and problem-solving skills Practiced public speaking and negotiation techniques

STUDENT ACTIVITY

Event Organizer, ITIDA Employment Fair

February 2026

- Organized and supported the execution of the ITIDA Employment Fair in Borg El Arab, Alexandria.
- Coordinated event logistics and ensured smooth workflow during the fair.
- Assisted in managing communication and attendee flow across different areas.
- Contributed to hosting **15 hiring companies** and supporting recruitment activities.

Graduate Event Organizer, Faculty of Science, Alexandria University (2024 – 2025)

- Participated in organizing the **graduation student parade** in 2024 as part of the event management team.
- In 2025, supported the organization of the **first-day parade** and coordinated **student registration** on the second day.
- Strengthened skills in **teamwork, leadership, and event logistics management**.

Volunteer , Egypt Robotics Competition Organizer

September 2024

- Assisted in organizing national-level robotics competitions Helped in managing teams, coordinating event logistics, and ensuring smooth execution
