Summary

Flutter Developer with hands-on experience in building scalable, user-friendly mobile applications. Completed a **Flutter Development Diploma** and an **Advanced Flutter Bootcamp**, where I collaborated with a team of developers in an **Agile and Scrum environment** to deliver production-ready apps. Skilled in API integration, clean architecture, state management, and testing. A proactive team player with strong problem-solving skills, seeking to contribute to impactful mobile solutions in a professional setting.

Education

Higher Technological Institute (HTI) **10/2022 – 6/2026 | Tenth of Ramadan City**
Computer Science Department | Currently a fourth-year student

Skills & abilities

- Dart & Flutter
- Object Oriented Programming
- Data Structure
- State Management: Cubit, Provider
- Clean Architecture
- Model-View-ViewModel (MVVM)
- Model-View-Intent (MVI)
- Design Patterns
- Local Database (Hive | Isar)
- Testing: Unit, Widget, Integration
- RESTful APIs Integration
- Flavors
- Version Control (Git)
- Adaptability
- CI/CD pipelines
- GitHub
- GitHub Actions
- Agile Methodologies
- Scrum
- Jira
- Firebase Cloud (Auth | Firestore | Crashlytics | App Distribution | Cloud Messaging)
- Teamwork
- Communication
- Time Management
- Collaboration
- Performance Optimization

Projects

Islamy App

Developed an Islamic app with Quran, Hadith, and radio features. Added navigation to marked Surahs/verses/Hadiths, sound notifications, and unit/widget testing. Uploaded to APKPURE; achieved stable performance with 95% crash-free sessions during internal testing.

Todo App

Built a task management app using Firebase Firestore streams for real-time updates. Enabled automatic UI refresh on data changes, improving user responsiveness by 30% based on test feedback.

E-commerce App

Engineered a shopping app with Clean Architecture, product filtering, cart, and wishlist. Integrated payment via API with secure web view checkout. Achieved 100% test pass rate and modular codebase for scalability.

Movies App

Developed a movie browsing app featuring latest releases, personalized recommendations, upcoming movies, and categorized search. Implemented watchlist and search functionality with optimized API calls, reducing data load time by 30%. Achieved smooth UI performance across devices using efficient state management.

Flutter Advanced Bootcamp Projects

Collaborated in a team of 5 developers using Agile and Scrum methodologies to deliver production-ready Flutter apps. Applied unit and widget testing, achieving over 80% test coverage across projects.

- **Flowery Ecommerce App** – Built a scalable shopping platform with integrated order and delivery system; reduced checkout errors by 40% through robust validation and testing.
- **Fitness App** – Designed a dynamic UI for tracking workouts and health goals; improved local data sync speed by 25% using optimized storage techniques.
- **Exam App** – Developed a secure exam platform with timed sessions and result analytics; supported 100+ concurrent users in internal testing with stable performance.

Certificates

- Flutter Development Diploma
- Advanced Flutter Bootcamp

Languages

- Arabic - Native proficiency
- English - Intermediate proficiency
